For green plants include Twenty-five Cents Extra  
for Special Delivery.

---

### **BASKET of POM PONS**

Pompons are small ball-shaped flowers liked by everyone.

Miniatures are the same form as the large flowering dahlias, but of miniature size. They are dainty, graceful, and extremely colorful, of easy cultivation, prolific bloomers and the blooms last well when cut for home use.

**WE URGE EVERYONE TO TRY A FEW  
OF THESE THIS YEAR**

---

THE varieties offered were grown successfully by us the past season, as the thrift of plants and wealth of bloom proved to all who visited us at blooming time. We hope to welcome you again this year.

Our many friends will recall our prize-winning exhibits at the big midwest show at Grand Rapids, and our large display of unusual small dahlias at the State show at the Statler in Detroit. We have found these small dahlias wonderful for home use or landscape work and borders.

## TWO LARGE FLOWERING DAHLIAS THAT ARE OUR FAVORITES

	Roots	Plants
<b>Jack Curtis</b> . A Semi-Cactus, that has many awards to its credit. Color is very dark, rich, velvety maroon, of a most admirable shade. Very prolific and can be grown to eleven inches by disbudding properly	\$1.25	\$ .75
<b>Wm. T. S. Curtis</b> . Informal Decorative, Self color, clear light lavender that does not fade or burn. Plant habit and form of this large flower is very good. A splendid cut flower. It has two first prizes, as best keeper, to its credit	1.25	.75

We grow many more large and small flowering varieties.  
Growing Instructions sent with every order.
